Schwarzschild & Sulzberger Company Selects Site at Broadway and Montgomery.

MAY ERECT PLANT LATER.

Buildings Now Planned Are to Be Used for a Wholesale Meat and Provision Mar-

The Mercantile Trust Company, through ts secretary, C. H. McMillan, yesterday, sold to the Schwarzschild & Sulzberger Packing Company four lots at the corner of Broadway and Montgomery street, near St. Louis avenue. The property faces eighty feet on Broadway and 150 feet on Montgomery street, extending back to the Wabash The Schwarzschild & Sulzberger Company

will immediately begin the erection of a large brick building on this property, which will be used as a wholesale beef and pro-vision market for the handling of its own products. The building will be four stories in front and two stories in the rear, and it in front and two stories in the rear, and it will be modernly equipped.

A year ago this company purchased a plat of ground, 65x130 feet, at Twenty-first and Poplar streets, and the plans for the construction of a wholesale market on this site have already been made and part of the building material is on the ground. This market will cost \$99,690, and the cost of the building to be rected on the Broadway site will be fully as much.

E. E. Machette, general manager of the Kansas City plant of the Schwarzschild & Sulzberger Company, says that the improvements to be made will represent an expenditure of \$290,600.

INDEPENDENT OF THE COMBINE.

INDEPENDENT OF THE COMBINE. The Schwarzschild & Suizberger Packing Company is an independent conce n, with plants in Chicago, New York and Kansas City. The Chicago plant was completed a year ago, and cost \$2,00,000. It is said to be a dreproof structure and the best-equipped packing plant in the world, From 3,000 to 5,000 cattle are killed in the Schwarzschild. Suizberger plants every day. 3,00 to 5,000 cattle are killed in the Schwarzschild & Suizberger plants every day.

Improvements contemplated by the Schwarzschild & Suizberger Company are looked upon as steps leading to the erection of a big packing plant in this market. With two large wholesale houses here, the company will be able to sound the situation in St. Louis, and it is known that if conditions prove favorable the packers will erect a plant.

Beymore notified Policeman Heer of his discovery, and the patrolman summoned a dead wagon, in which Ward's body was conveyed to the morgue.

Shea stated that his brother had attempted to end his life with carbolic acid Thursday afternoon, but the drug had failed to do the work. After taking the poison Ward ran from the house, and was not seen again until his body was found in the vacant lot. NEGOTIATIONS ARE CLOSED.

NEGOTIATIONS ARE CLOSED.

Besides Mr. Machette, J. A. Howard, general manager of the branch department, and C. E. Huntley, superintendent of construction, have been in St. Louis, and assisted in the closing of negotiations with the Mercantile Trust Company. At the Planters hast night these officials said that it was not at all unlikely that St. Louis would be given favorable consideration for the erection of a packing plant by the Schwarzschild & Sulzberger Company.

"It is the most prominent live-stock market in the United States in which we have not now a packing plant," said Mr. Howard, "and if the trade conditions justify the building of a new plant, a site will undoubtedly be selected near the National Stock Yards."

WARRANT ISSUED FOR MOTHER. Little Girls Missing and Kidnaping Is Charged.

Bay City, Mich., March 20.—Two grand-daughters of M. J. O'Brien of South Sheridan street are missing from their home, and a warrant has been issued for Mrs. Emma Quinn of Los Angeles, Cal., on the charge of kidnaping them. Mrs. Quinn is the mother of the two girls and was divorced several years ago from the children's father.

The children were sent as usual to school yesterday morning, and no trace of them has been found since they left home.

After the divorce the older of the two girls went to her grandparents to live, while the mother took the younger with her. Later she zent the child also to the grandparents, saying, it is alleged, she was unable to care for her.

UNEASINESS OF LABOR IS ONLY DISTURBER OF TRADE

Strikes Is Smaller-Floods an Apparent Drawback.

New York, March 20.-Bradstreet's to-Excessive moisture in the form of neavy rains and floods, or of merely bad roads, is an apparent drawback to distributive trade.

Over against this, however, is to be placed an improvement in jobbing trade at some leading Western centers, a shade better than heretofore

the iron and steel trades.

There is even some, though perhaps more apparent than real, improvement in the labor situation, some strikes having been avoided or settled, but labor disturbance is still a possible unsetting feature, particularly in the building trades.

man who has gained considerable notoricty throughout the country by his daring optrations.

O'Brien has been known to older members of the police force in St. Louis for twenty years. It is said of him that he had mounted the gailows to be hanged at Las Vegas, N. M., twenty-five years ago for murder, when a respite came from the Governor. A new trial was obtained and he was acquitted.

O'Brien was the associate in former years of such well-known confidence men as Reed Waddell, who was killed in Paris. As a card sharp it is said that O'Brien has few superiors, and many stories are told of him in connection with big swindling deals at cards. His most recent trick in this line is said to have been played at Springfield, Ill., where a member of the Legislature dropped several thousand dollars in a poker game.

Chief Desmond, who has known O'Brien for years, had a long talk with him and told him that St. Louis did not need his presence. He was asked to leave town, and promised that he would do so at once.
